Hi Everyone,

Attached are the annotated agenda, powerpoint, and additional information for Elizabeth's folder. Let me know if you have comments or if I need to track down any more info. A couple of notes/questions:

Powerpoint

-It's in pretty good shape, but there may be some formatting issues. Let me know if the level of detail for each topic is okay.

-I've included placeholders for ADEQ and the Counties to give input and updates on various topics, but we should let them know beforehand so they're prepared. Or I can take them out.

Agenda

-Let me know if level of detail is okay here too. I've included background info where I thought it might be helpful, or where I had trouble cutting down the info that people gave me.

-I underlined what I think will be our main messages, but let me know if you'd like a different format.

-I added into about Hickman Egg Farm at the end, but I don't know if that's going to come up or not. I also found this NPR article which I think does a decent job of laying out the community's concerns: <http://kjzz.org/content/214892/arizona-residents-spar-hickmans-egg-farms-over-smell-health-concerns>. I could just include this if you think the bullets are too much.

-Are there any other topics that should be part of the agenda?

Sorry I can't join you, I'm still feeling pretty crappy. But I should be able to make updates this afternoon if you send me your edits. Thanks!

Maeve Clancy
